Notification and Agency Resource Guide

INTRODUCTION

Purpose:
The purpose of this guidebook is to provide consistent relevant information for freeway incident response personnel to facilitate safe, rapid and coordinated incident response and overall incident management. This guidebook serves as a reference for freeway incident response personnel, on-scene managers or commanders, dispatch centers, operations centers or agency headquarters. It can also serve as a training guide for Traffic Incident Management Team personnel.

Background:
Once an incident has been detected, response depends on understanding the nature of the incident and the steps and or resources that are necessary to return the facility to normal conditions. These steps may entail, among other items, requesting assistance or services from other agencies or contractors, requesting special equipment and or personnel, and the deployment of special traffic management strategies, including motorist information.

As with early detection, the appropriate identification of needs at an incident significantly decreases the time required to clear the incident. However, unlike incident detection, proper identification of needs at an incident site is more a function of training and knowledge of the available response resources than a function of technology. Because incidents can be cleared with various techniques and pieces of equipment, persons or agencies that initially respond to an incident scene must have adequate training to select the best response. They must be able to judge the scope of the problem and know which local agencies and what resources are appropriate and available for responding to that specific incident at that time and at that location.

How to Use This Guide

The Notification and Resource Guide is organized into three major areas:

Sections 2 and 3 provide an overview of the multi-agency framework for freeway incident management. These sections provide comprehensive data on the organizations, vital contact information and available resources.

Section 4 provides incident responders, dispatchers, and managers/commanders with a directory of resources to quickly locate necessary services and contractors along with additional contacts within various agencies and organizations.

Section 5 includes individual jurisdiction maps for use by incident responders to quickly locate an incident and, using the information on the facing page, rapidly determine the established notification procedure for the impact level of incident.

A firm, vendor, or agency's absence or presence does not imply prejudice or impropriety. Neither FDOT nor PB Farradyne endorse any contractor or service provider. Each agency is encouraged to add additional qualified contacts to the guide.

Traffic Impact Levels

Criteria for
Establishing Freeway Incident Levels Based on *Traffic Impact*

Level 1:

Impact to the traveled roadway is estimated to be less than 30 minutes with no lane blockage or minor lane blockage.

Level 2:

Impact to the traveled roadway is estimated to be 30 minutes to 2 hours with lane blockages, but not a full closure of the roadway.

Level 3:

Impact to the traveled roadway is estimated to be more than 2 hours or the roadway is fully closed in any single direction. Significant area-wide congestion is expected.

- ***Determination of Incident Level will be made under the discretion of the First Responding Agency or the Incident Commander based on incident scene assessment.***
- ***After determination of the Incident Level, the Incident Commander will notify their dispatch instructing them to make the agency notifications appropriate for the Incident Level.***

State of Florida

"OPEN ROADS POLICY"

Quick Clearance for Safety and Mobility

This agreement by and between the Florida Highway Patrol (FHP) and the Florida Department of Transportation (FDOT) establishes a policy for FHP and FDOT personnel to expedite the removal of vehicles, cargo, and debris from roadways on the State Highway System to restore, in an URGENT MANNER the safe and orderly flow of traffic following a motor vehicle crash or incident on Florida's roadways.

Whereas: Public safety is the highest priority and must be maintained especially when injuries or hazardous materials are involved. The quality of life in the State of Florida is heavily dependent upon the free movement of people, vehicles, and commerce. The FHP and FDOT share the responsibility for achieving and maintaining the degree of order necessary to make this free movement possible. Agencies have the responsibility to do whatever is reasonable to reduce the risk to responders, secondary crashes, and delays associated with incidents, crashes, roadway maintenance, construction, and enforcement activities.

The following operating standards are based on the philosophy that the State Highway System will not be closed or restricted any longer than is absolutely necessary.

Be it resolved: Roadways will be cleared of damaged vehicles, spilled cargo, and debris as soon as it is safe to do so. It is understood that damage to vehicles or cargo may occur as a result of clearing the roadway on an urgent basis. While reasonable attempts to avoid such damage shall be taken, the highest priority is restoring traffic to normal conditions. Incident caused congestion has an enormous cost to society.

Florida Highway Patrol Responsibilities

Members of FHP who respond to the scene of traffic incidents will make clearing the travel portion of the roadway a high priority. When an investigation is required, it will be conducted in as expedient a manner as possible considering the severity of the collision. Non-critical portions of the investigation may be delayed until lighter traffic conditions allow completion of those tasks. The FHP will close only those lanes absolutely necessary to safely conduct the investigation. The FHP will coordinate with FDOT representatives to set up appropriate traffic control, establish alternate routes, expedite the safe movement of traffic at the scene, and restore the roadway to normal conditions as soon as possible.

Whenever practical, damaged vehicles on access controlled roadways will be removed to off ramps, accident investigation sites, or other safe areas for completion of investigations to reduce the delays associated with motorists slowing to "gawk." Tow trucks will be requested as soon as it is evident that they will be needed to clear the roadway. FHP will assure that all authorized tow operators have met established competency levels and that the equipment is of appropriate size, capacity, and design to meet all standards of the State of Florida.

The FHP will not unnecessarily cause any delay in reopening all or part of a roadway to allow a company to dispatch its own equipment to off-load cargo or recover a vehicle or load that is impacting traffic during peak traffic hours or creating a hazard to the public. The FHP and FDOT will cooperate in planning and implementing clearance operations in the most safe and expeditious manner.

Florida Department of Transportations Responsibilities

When requested by FHP or other emergency agency, FDOT will respond and deploy resources to major traffic incidents 24 hours a day, 7 days per week. Each FDOT District will develop and implement response procedures to meet the goal of providing initial traffic control within **30 minutes** of notification during the assigned working hours of each maintenance yard, and **60 minutes** after hours.

The FDOT, in coordination with FHP, will upgrade traffic controls, determine detour routes, and discuss clearance strategies. When requested, FDOT will provide temporary traffic controls to ensure a safe work zone for all responders and the motoring public.

The FDOT, in cooperation with the FHP, will determine and deploy the necessary heavy equipment and manpower to reopen the roadway if there is a delay in clearing the travel lanes, or if the task is beyond the capabilities of the wrecker service on scene. If cargo or spilled loads [non-hazardous] are involved, FDOT will make every effort to assist in the relocation of the materials in the shortest possible time, using whatever equipment necessary. All such materials or any vehicles relocated by FDOT will be moved the minimum possible distance to eliminate traffic hazards.

FDOT personnel will document all hours and equipment used for traffic control, roadway clearance, and debris clean up. FDOT will place traffic control devices at the scene should any damaged vehicles or cargo remain on the shoulder adjacent to the travel lanes for removal at a later time.

The FDOT and FHP will continually work together to ensure that the needs of motorists on state roadways are being met in the most professional, safe, and efficient manner.

Therefore, it is agreed as follows:

The FHP and the FDOT will evaluate and continually update and modify their operating policies, procedures, rules, and standards to assure they are consistent with this **"OPEN ROADS POLICY"** agreement.

FHP, together with FDOT, will research, evaluate, and conduct training in the most advanced technologies, equipment, and approved methods for the documentation and investigation of crash or incident scenes. FHP, using these techniques, will prioritize the investigative tasks and reopen travel lanes upon completion of tasks that must be conducted, without the impediment of traffic flowing.

Roadways will be cleared as soon as possible. It is the goal of all agencies that **all incidents be cleared from the roadway within 90 minutes of the arrival of the first responding officer.** This goal being made with the understanding that more complex scenarios may require additional time for complete clearance.

It is further agreed that:

FHP and FDOT will actively solicit and enlist other state, county, and local agencies, political subdivisions, industry groups, and professional associations to endorse and become party to this **"OPEN ROADS PHILOSOPHY"** for the State of Florida.

In witness whereof, each party hereto has caused this document to be executed in its name and on its behalf by its duly authorized Chief Executive.

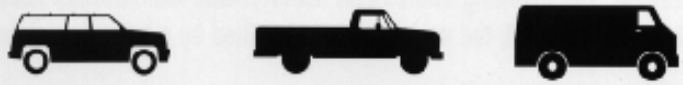
TRAA VEHICLE IDENTIFICATION GUIDE©

CLASS 1 • LIGHT-DUTY • (6,000 lbs. or less GVW - 4 tires)*

CLASS 2 • LIGHT-DUTY • (6,001 - 10,000 lbs. GVW - 4 tires)*



Classes 1 and 2 include passenger vehicles, light trucks, minivans, full size pickups, sport utility vehicles and ful size vans.

CLASS 3 • MEDIUM-DUTY • (10,001 - 14,000 lbs. GVW - 6 tires or more)*

CLASS 4 • MEDIUM-DUTY • (14,001 - 16,000 lbs. GVW - 6 tires or more)*

CLASS 5 • MEDIUM-DUTY • (16,001 - 19,500 lbs. GVW - 6 tires or more)*

CLASS 6 • MEDIUM-DUTY • (19,501 - 26,000 lbs. GVW - 6 tires or more)*

Classes 3 through 6 include a wide range of mid-size vehicles, delivery trucks, utility vehicles, motorhomes, parcel trucks, ambulances, small dump trucks, landscape trucks, flatbed and stake trucks, refrigerated and box trucks, small and medium school and transit busses.

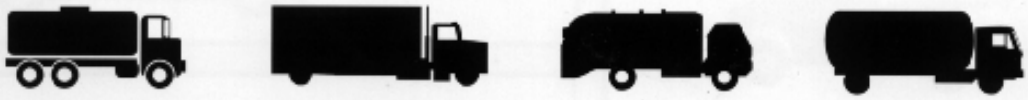
Information Needed To Correctly Dispatch Towing and Recovery Units:

- Year, Make and Model of Vehicle to be Towed or Recovered
- DOT Classification (Class 1 – 8 based on GVW)
- Location of Vehicle
- Type of Tow (impound, accident, recovery motorist assist, etc.)
- Additional Vehicle Information
  - 2 wheel drive, 4 wheel drive, all wheel drive
  - damage to vehicle, tire condition
  - vehicle loaded or empty
  - cargo contents
  - does the vehicle have a trailer
  - are the keys with the vehicle

Note: Any vehicle may carry hazardous materials. Advise if placarded.

*** Note:*** The Gross Vehicle Weight Rating (GVWR) of the vehicle to be towed or recovered can be found on the identification label on the vehicle's driver's side doorframe. The number of pounds listed on the label can then be compared with the DOT Classification Vehicle Type Chart for the correct DOT class.

CLASS 7 • HEAVY-DUTY • (26,001 - 33,000 lbs. GVW - 6 tires or more)*



CLASS 8 • HEAVY-DUTY • (33,001 lbs. and over GVW - 10 tires or more)*

Source: © TT Publications/Vehicle Identification Guide, ©TRAA

Law enforcement communications with towing and recovery operators describing an incident and the vehicles involved can insure quick and efficient clearing of these scenes and less disruption to traffic flow. In an effort to standardize communications, the towing industry is adopting the federal vehicle class standards as outlined herein.

VIN CODES

The year of the vehicle is critical information for towing operators in order for them to reference correct towing procedures. The diagrams on the front are examples of classifications. The following information about vehicle identification numbers affixed to the chassis will help determine the vehicle's year. As noted, the vehicle's year, identified by a letter or number in the VIN sequence, is the eighth character from the right.

EXAMPLE 1995 VIN NUMBER: 1P8ZA1279SZ215470

1980.....A	1987.....H	1994.....R	2001.....1	2008.....8
1981.....B	1988.....J	1995.....S	2002.....2	2009.....9
1982.....C	1989.....K	1996.....T	2003.....3	2010.....A
1983.....D	1990.....L	1997.....V	2004.....4	2011.....B
1984.....E	1991.....M	1998.....W	2005.....5	2012.....C
1985.....F	1992.....N	1999.....X	2006.....6	
1986.....G	1993.....P	2000.....Y	2007.....7

Florida Department of Transportation

FDOT District I

The Florida Department of Transportation District I Headquarters Office in Bartow handles management and has operational responsibility for all state owned highways and freeways in Collier, Lee, Charlotte, Sarasota, and Manatee Counties. The freeways include I-75 and I-275. Freeway maintenance is handled by the asset management contractors listed below.

District I, with a land area of nearly 12,000 square miles, represents a total of 12 counties in Southwestern Florida. Its 2.3 million residents contribute to the 34.7 million miles traveled daily on its state highways.

FDOT provides capital and operating assistance to four major transit authorities with 105 passenger vehicles in District I. In addition, there are 115 private airports, 19 public airports, four major rail lines, and one deep-water port in operation.

The District Secretary, Directors, Department Heads, administration and staff are located at the FDOT Headquarters Building at 801 N. Broadway Street, Bartow, Florida 33830-3809. Phone (863) 519-2300.

The Southwest Area Office is located at 2295 Victoria Avenue, Suite 292, Fort Myers, Florida 33901. Phone (239) 461-4300, Fax (239) 338-2353.

Maintenance and Emergency Response – Not on Interstate

(I-75 and I-275 maintenance is the responsibility of asset management firms under contract to FDOT – see above.)

FDOT District 1 has established seven local operations centers and maintenance yards that provide maintenance and emergency response on the state highway system (except I-75 and I-275). Collier County maintains the state highway system roads in Collier County (facility listed below). While FDOT has contracted out maintenance and emergency response for I-75 and I-275 to the asset management providers, resources are available from the operations centers and maintenance yards under extenuating circumstances.

Facility	Address		Phone (24 hr)	Response Area
Collier County Roadway Maintenance	**4800 Davis Blvd**	**Naples**	**(239) 774-8924**	**Collier**

Collier County Roadway Maintenance

Collier County Road and Bridge Department provides maintenance on state roadways (excluding I-75) in Collier County under contract with FDOT. After-hours calls are taken by an answering service that contacts the on-call person.

Collier County resources include:

- Arrowboards
- Asphalt roller
- Backhoes
- Broom tractor

- Dump trucks
- Forklifts – warehouse and off-road
- Gradall / hydroscopic excavators
- Graders
- Hydraulic water pump, 6”
- Light tower / generator
- Loader
- Low-boy tractor trailers
- On-site fuel
- Paver
- Street sweepers
- Vac trucks
- VMS signs

Ft. Myers Operations Center
Regular working hours at the Fort Myers Operations Center are Monday – Thursday, 7:00 a.m. to 5:30 p.m. After-hours calls are taken by an answering service that pages the on-call supervisor.

Resources at the FMOC include:
- Attenuator trucks
- Broom tractor
- Loader
- Magnet bar on wheels
- On-site fuel
- Portable signs
- Sand spreader
- Trucks with arrowboards
- Vac truck
- VMS signs

Sarasota Operations Center
Regular working hours at the Sarasota Operations Center are Monday – Thursday, 7:00 a.m. to 5:30 p.m. The office is staffed on Fridays from 8:00 a.m. to 5:00 p.m. After-hours calls are taken by an answering service that forwards them to the on-call supervisor.

Resources at the Sarasota Operations Center include:
- Attenuator trucks
- Broom tractor
- Loader
- Magnet bar on wheels
- On-site fuel
- Portable signs
- Sand spreader
- Trucks with arrow boards
- Vac truck
- VMS signs

FDOT Road Ranger Service Patrols

The Florida Department of Transportation, District 1 operates a program that provides roving Service Patrol vehicles in the five counties traversed by I-75: Collier, Lee, Charlotte, Sarasota and Manatee. The units are privately owned, specially equipped pick-up trucks working under contract to FDOT through the Asset Management programs.

The primary purpose of the patrol service is to respond to non-recurring incidents such as motor vehicle collisions, material spills and vehicle disabilities. The response and assistance provided at these incidents by the patrol helps reduce the disruption to the traffic stream and improves safety to motorists and other incident scene responders. All services are provided free of charge.

The Service Patrol Vehicles operate 24 hours per day, 7 days per week, including holidays. FDOT handles program administration and oversight with FHP serving as the communications contact. The Service Patrol Operators work independently while on patrol and while making motorist assists. They work under the direction of FHP personnel at major incident scenes.

The Road Ranger patrol units rove the five counties (and Alligator Alley in Broward County) 24 hours a day looking for and assisting motorists with disabled vehicles and responding to calls from the roadside call boxes relayed to them from FHP. They also assist FHP and other responders at incident scenes.

To request a Road Ranger Service Patrol Unit for assistance, call *FHP (*347) or contact FHP dispatch (866-833-2715 or 239-938-1800)

For the program administrator contract refer to the Asset Management Chart (Page 2-2)

FDOT Districts 1 and 4 jointly fund the Road Ranger Service Patrol Program in Collier and Broward Counties on Alligator Alley. By agreement, Infrastructure Corporation of America (ICA), the asset management contractor, manages the program.

FDOT District 1 funds the Road Ranger Service Patrol Program in Lee, Charlotte, Sarasota, and Manatee Counties. Jorgensen Construction Services, the asset management firm for these counties, is under contract to FDOT to provide these services.

Calls for assistance made by motorists on the Motorist Aid call boxes or by calling *FHP are received by FHP at the Regional Communication Center in Fort Myers. FHP notifies the Road Rangers by pager. The Road Ranger calls FHP by Nextel for additional information.

Duties

Florida Department of Transportation
Road Ranger Service Patrol

I-75 in Collier, Lee, Charlotte, Sarasota and Manatee Counties

- Continually rove a freeway segment (beat) to detect and respond to traffic disruptions and provide free assistance to motorists in need. Including minor repairs, tire changing, jump starts, water, fuel or the use of a cell phone, etc.
- Immediately take action to clear the lanes of all disabled or damaged vehicles (no injuries).
- Clear small debris and non-hazardous spills from the roadway.
- Take action as a first responder. Call FHP and appropriate Fire Rescue agencies for serious traffic accidents. The operator will protect the scene by setting cones, flares and using the truck mounted arrow board.
- Make every attempt to reduce the impact on traffic while maintaining scene safety. Render assistance to FHP, Fire and other responders as needed.
- Inform any vehicle driver that he will assist them follow Florida Law by relocating disabled vehicles that are obstructing traffic to a safe location.
- The Service Patrol relocates vehicles out of traffic or hazardous locations. Once vehicles are on the shoulder, if towing services are required, the Service Patrol will contact FHP who will follow their procedure to dispatch from the tow rotation list.

FDOT Service Patrol Beats

I-75

Including Alligator Alley

Three trucks cover I-75 in Collier and Broward Counties

- Two trucks on Alligator Alley in Collier and Broward Counties cover 75 miles (37.5 miles each)
- One truck covers north Collier from the Alley West Gate to the Bonita Beach Rd exit (16 miles)

One truck covers Lee County (35 miles)

One truck covers Charlotte County (29 miles)

One truck covers Sarasota County (27miles)

One truck covers Manatee County, including I-275 up and over the Sunshine Skyway Bridge (43 miles)

Bridge Inspection

Emergency bridge inspection services are provided to FDOT under contract. Contacts are listed below.

Collier County
ICA (Sarasota Office): Monday – Friday, 8:00am-6:00pm (941) 341-9300
Fax (941) 341-9314

After hours and weekends: (800) 335-9646
The call taker will dispatch crew / engineer to location as needed.

Sunshine Skyway Bridge Warning Signs

There are six CLOSED WHEN FLASHING signs on the approaches to the Sunshine Skyway Bridge in Manatee County. The signs are activated by the flasher paging system located at the Manatee County shop. To activate the signs, FHP (Troop C or Troop F) contacts Manatee County to send out a group page which to turn on (or off) all the Skyway Warning Flashers. It takes approximately 30 seconds for the flashers to activate from the time the page is sent.

FHP makes visual confirmation that the flashing lights are on (or off).

Problems with the flashers should be reported to:

DIVISION OF
FLORIDA HIGHWAY PATROL

TROOP F

FT. MYERS DISTRICT
VENICE DISTRICT
BRADENTON DISTRICT

Florida Highway Patrol Troop F

Troop Headquarters is located at the Bradenton District Station in Manatee County. Troop F is commanded by a Major who is charged with the operations of the ten counties which comprise the troop. The ten counties are broken down into four districts, the Bradenton District, the Arcadia District, the Venice District and the Fort Myers District. There are six station facilities located throughout the troop including district offices in Bradenton, Venice, Arcadia and Fort Myers and sub-district offices in Naples and Lake Placid. The troop Public Affairs Officer is located at troop headquarters.

The Bradenton District is located at Troop F Headquarters and includes all of **Manatee County**. The Bradenton District is commanded by a Captain. Other staff includes one Lieutenant, four Sergeants (three Squad Sergeants, and one Traffic Homicide Sergeant), six Traffic Homicide Investigators (Corporals), 23 Troopers, one Senior Secretary and two Record Clerks.

The Arcadia District is located in Arcadia and includes DeSoto County, Hardee County, Highlands County Glades County and Hendry County. The Arcadia District is commanded by a Captain. Other staff includes one Lieutenant, four Sergeants, four Traffic Homicide Investigators (Corporals) and 23 Troopers (4 Troopers assigned to DeSoto County, 4 Troopers assigned to Hardee County, 6 Troopers assigned to Highlands County, 4 Troopers assigned to Glades County and 5 Troopers assigned to Hendry County).

The Venice District is located in Venice and includes **Sarasota County** and **Charlotte County**. The Venice District is commanded by a Captain. Other staff includes one Lieutenant, three Sergeants, five Traffic Homicide Investigators (Corporals) and 32 Troopers (22 Troopers assigned to Sarasota County and ten Troopers assigned to Charlotte County).

The Fort Myers District is located in Fort Myers and includes **Lee County** and **Collier County.** The Fort Myers District is commanded by a Captain. Other staff includes three Lieutenants, seven Sergeants, eight Traffic Homicide Investigators (Corporals) and 35 Troopers. Staffing for the two counties includes the following:

- Lee County – two Lieutenants, five Sergeants (three Squad Sergeants, one Traffic Homicide Sergeant, one Felony Team Sergeant), eight Traffic Homicide Investigators (Corporals) and 20 Troopers;
- Collier County – one Lieutenant, two Sergeants and 15 Troopers.

Additionally, three Felony Teams are assigned to the Fort Myers District. This includes 6 Troopers and three canines.
