# I-95 CC Vehicle Probe Project & VPP Suite
March 2016

Stay informed on all VPP & VPP Suite related information!

There are two webcasts scheduled in addition to our regular quarterly meetings. Please read below for more information and to register.

NEW & IMPROVED VPP Suite Bottleneck Tool Webcast – April 21, 2016, 11:00am – Noon EDT **Immediately following the VPP Suite User Group Webcast

The soon-to-be-released new Bottleneck Ranking Tool (and algorithm) will provide VPP Suite users better and deeper insights into bottleneck dynamics and complexities - such as overlapping or merging bottlenecks. This webcast will provide Suite users with: an introduction to the new process; how to use new features, and; some new graphics that will help you to explore the aspects of each bottleneck, all presented in a unique and informative way.

To register for this webcast, please click here.

Traffic Message Channel (TMC) Code Webcast – May 11, 2016, 1:00pm – 2:00pm EDT

This webcast will focus on the source, governance and intellectual property issues related to long term use of the TMC codes by government agencies; explore the suitability of the TMC codes for a variety traffic data reporting; and, recommend best practices for agencies using TMC codes.

To register for this webcast, please click here.

The full report may be found on the I-95 Corridor Coalition's website: Traffic Message Channel Codes: Impact and Use within the I-95 Corridor Coalition's Vehicle Probe Project Summary Report (December 2015)
