

RITIS User Group Follow-Up

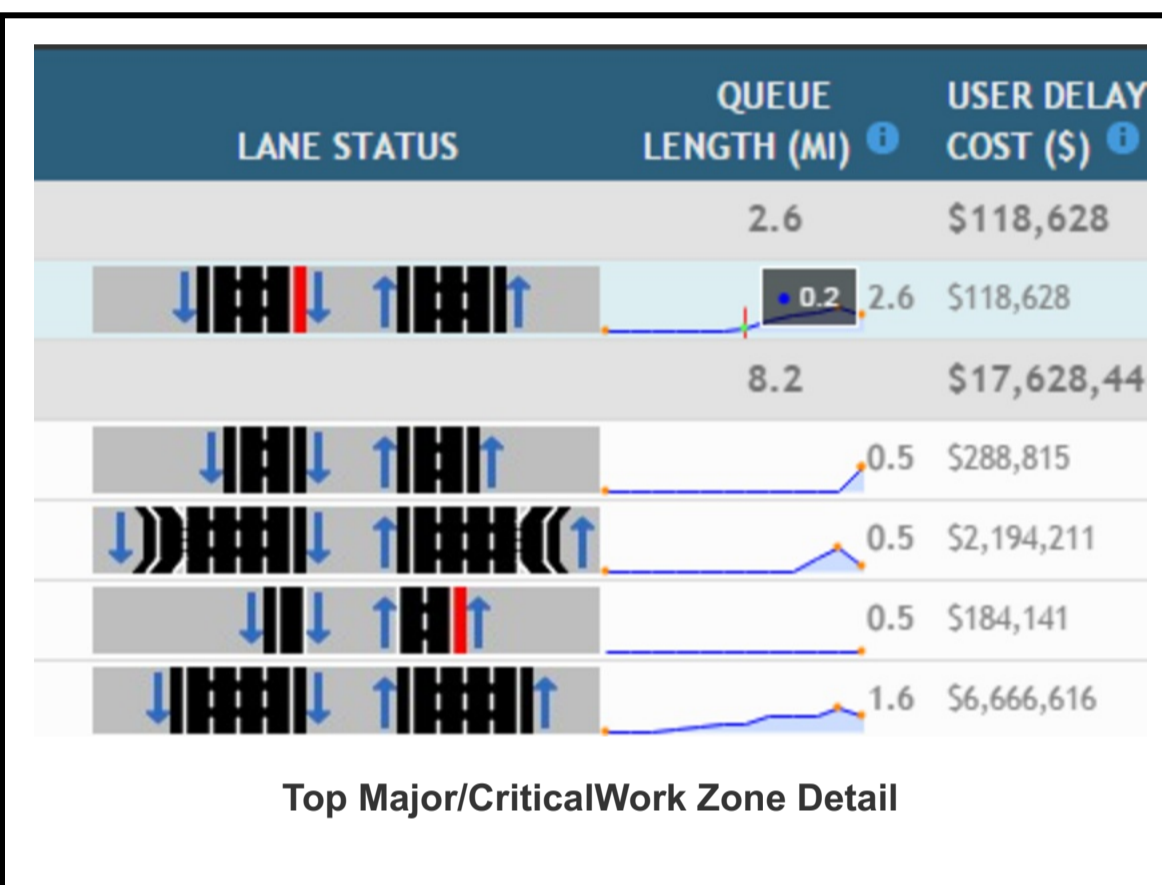

Recent User Group Meeting:

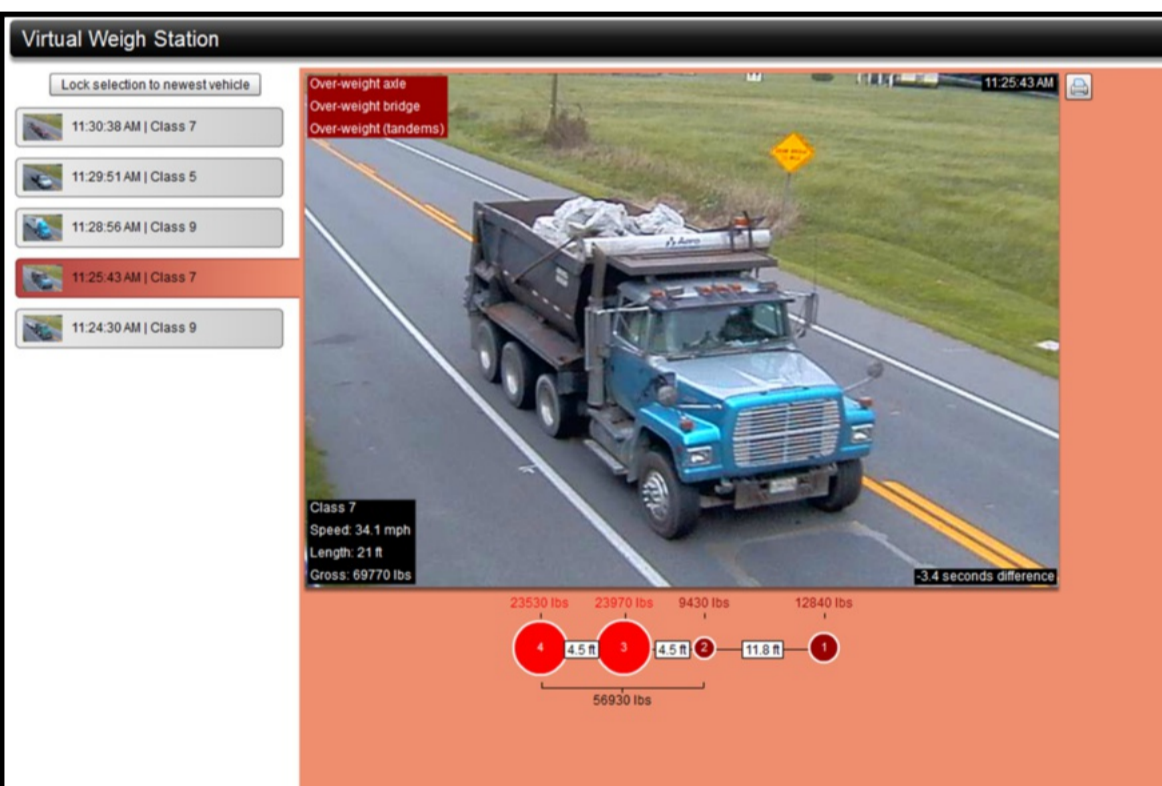

Thanks to those who participated in the RITIS User Group meeting on June 8, 2017. Please visit the [RITIS page on the I-95 Corridor Coalition website](#) or click on the links below for more information about the meeting.

- [Presentation with Audio](#)
- [Slides Only](#)
- [Meeting Minutes](#)

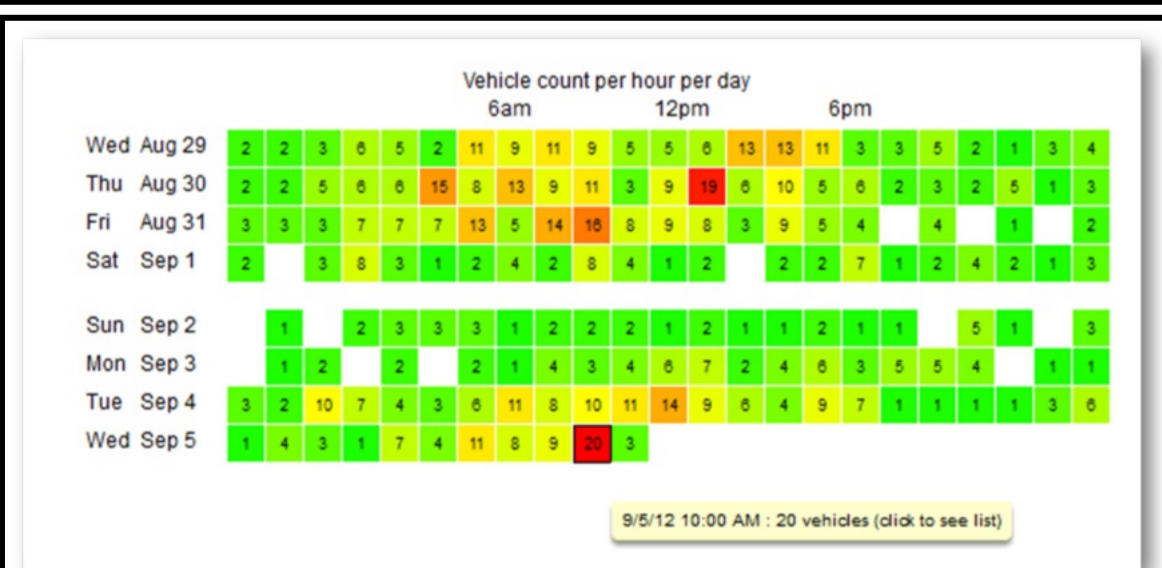

The new **Work Zone Performance Monitoring** tool was previewed during the meeting. Michael Pack (UMD CATT Lab) showed how agencies could use this tool to quickly and easily look at speed, queues, safety and user delay costs in work zones.

Michael also discussed **Virtual Weigh Station (VWS)** which allows the Maryland State Highway Administration to monitor and analyze vehicle violations in real time directly through RITIS. He showed how VWS is used in the field and several analytics that are included in the tool.

Example of VWS Analytics App

Next Meeting:

The next RITIS User Group meeting is scheduled for **September 21, 2017**

Please look for the meeting topics & registration soon.

Information on RITIS and the User Group can be found in the "[RITIS Page](#)" on the [I-95 Corridor Coalition website](#).

Have you used the RITIS tools for something that would benefit User Group Members? How about giving a brief presentation at an upcoming meeting?

- **We will help!**
- We will provide you with a template, help you build your slide layout and content, and conduct a dry run.
- Please contact John Allen jallen35@umd.edu or Joanna Reagle jreagle@kmjinc.com if you are interested.
